"A Story of Hope, Opportunity, and Leadership"

"Kerry Fund: A Parent to My Soul"

My name is Murerwa Kellen, and I'm currently studying Software Engineering at the African Leadership University (ALU) in Rwanda. I'm writing this with deep gratitude and a heart full of hope because my life today is a direct result of the incredible impact of the Kerry Fund.

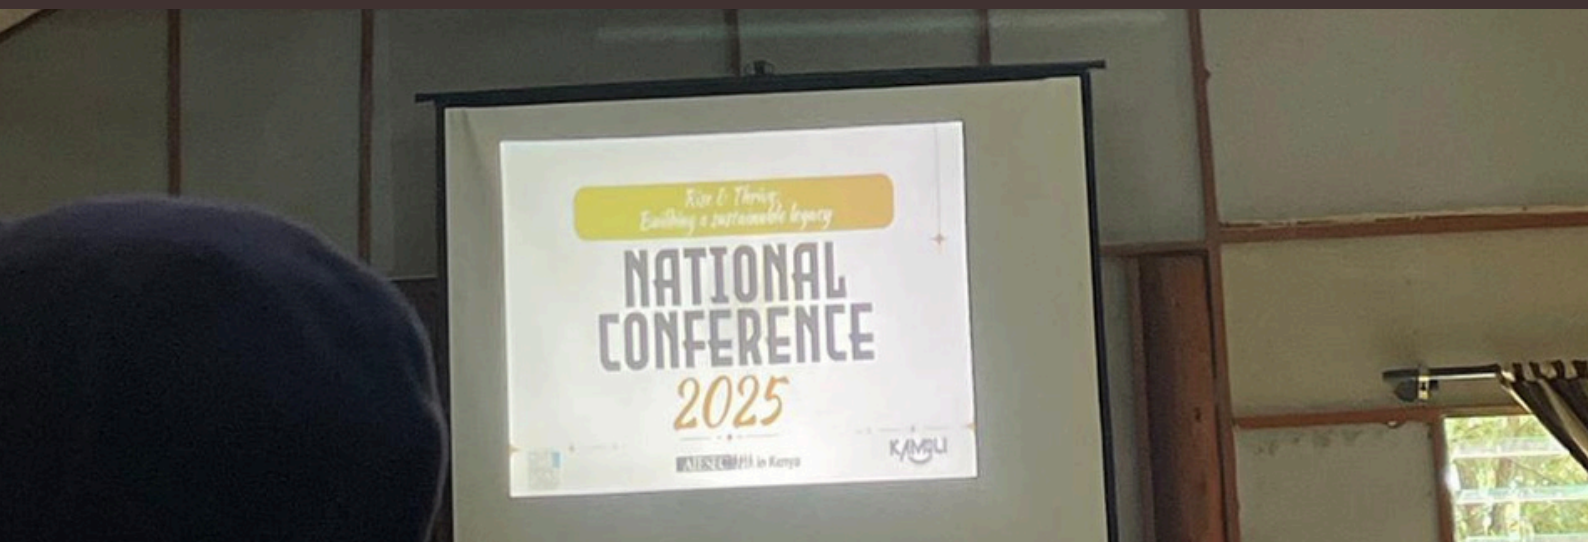

"Kerry Fund is a Second Parent to me"

Before Kerry Fund: My Dreams Felt Far Away

I come from a background where higher education especially at a world class university like ALU felt like a distant dream. My family's financial situation meant that despite my passion, intelligence, and determination, accessing quality education was nearly impossible.

But everything changed when Kerry Fund stepped into my life. They didn't just support me with tuition, they believed in my potential. That belief became my foundation. And thanks to them, I'm now in one of the best learning environments in Africa, growing every single day.

A Life-Changing Experience in Kenya

One of the most transformative moments of my journey came when I was selected to attend an international conference in Kenya hosted by AIESEC. It brought together youth from across the continent, young people who are passionate about leadership, sustainability, and change.

I was overjoyed to be selected—but immediately worried about the cost. I couldn't afford the travel, accommodation, or participation fees.

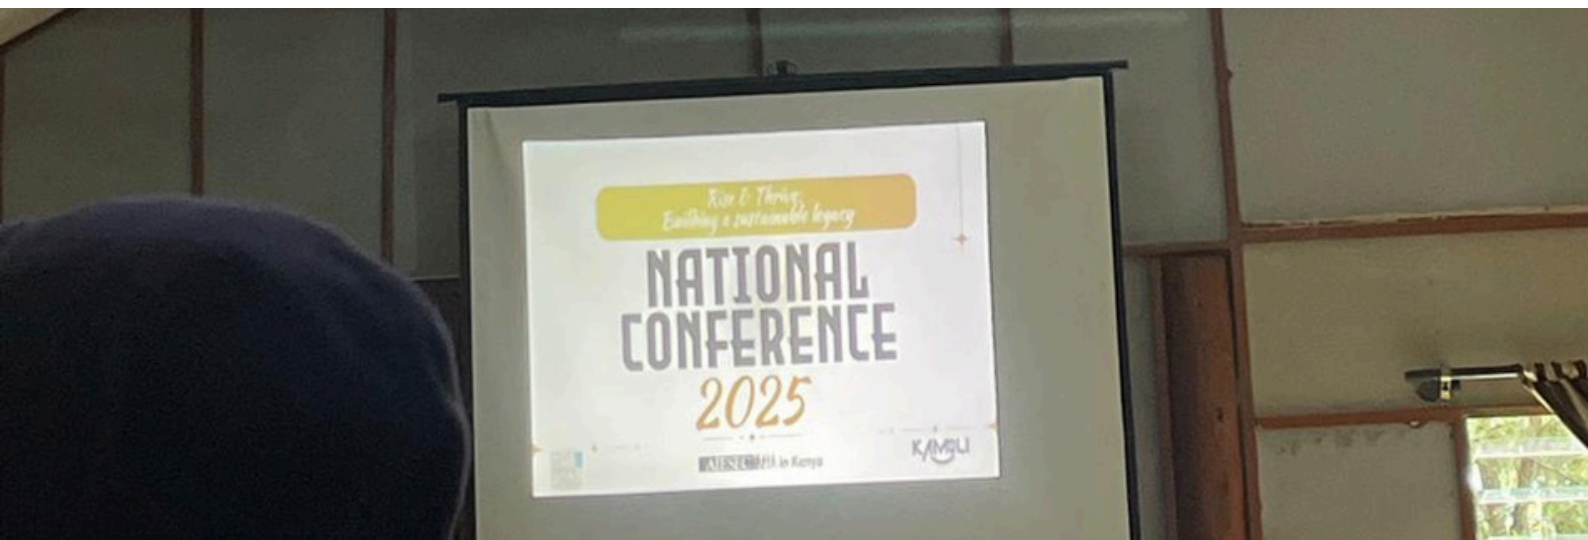

Once again, Kerry Fund came through for me.

They fully sponsored the trip and made sure I lacked nothing.

Because of them, I was able to:

- Meet other brilliant young Africans and build global networks
- Learn from experts about leadership, entrepreneurship, and sustainable development
- Grow in confidence, ambition, and clarity about how I want to contribute to Africa's future

That experience changed my mindset. I came back more empowered, more focused, and more determined than ever.

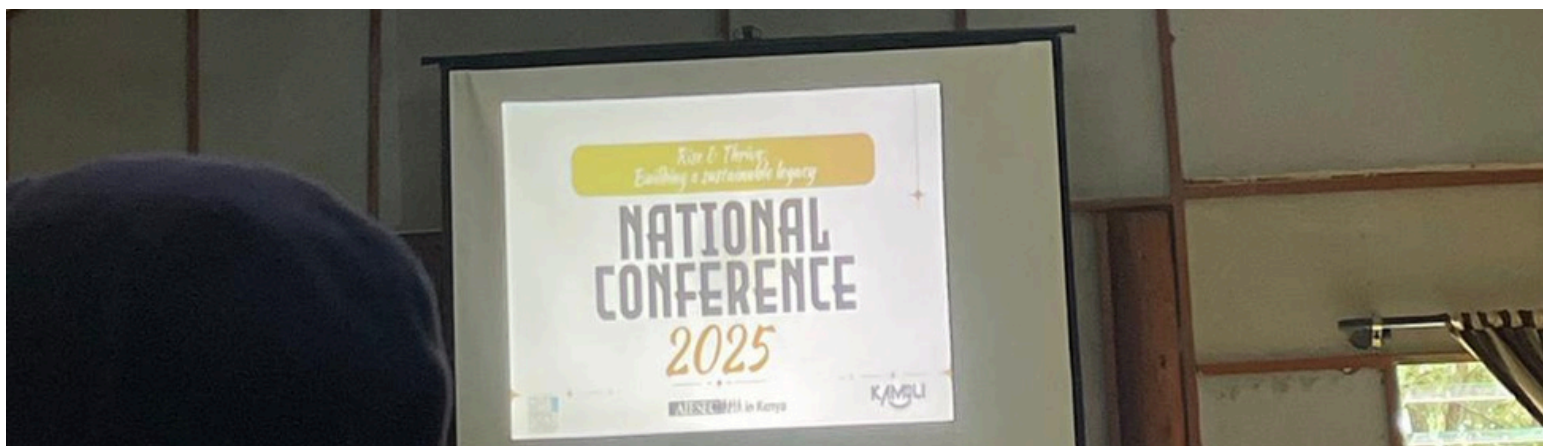

Giving My Guardian Hope

Beyond the classroom, this journey has given my guardian something precious: hope.

To see me thrive, to witness opportunities coming my way, to hear me speak with vision, it has changed how my family sees the future. They no longer live in fear of tomorrow. Now, they believe in it.

Kerry Fund gave us that.

Let's Build More Stories Like Mine

A Message to You—Dear Donor and Supporter

Join us. Be part of this movement that doesn't just fund education but transforms lives. Together, we can unlock potential, uplift families, and shape the future of Africa.

With all my heart,
Murerwa Kellen
